Commtech Wireless 6120 Alphanumeric Pager

Turn the pager on by holding the **Read Button** down for two seconds (oval *black button with green stripe)*. The unit will activate the power on chime, and display "**Varitronics**". This screen will then display the time and date. Eventually the screen will go blank except for the "power on" symbol, a circle in the left corner of the display.

NOTE: Refer to the **Commtech Wireless 6120** pamphlet for complete feature and programming capabilities.

To scroll through stored messages, press the **Read Button** to display the last received message. Now press the **Left Arrow Key** to scroll back through past messages. Use the **Right Arrow Key** to scroll forward.

To clear messages, press the **Read Button** to display a message. While the message is displayed, hold the **Escape Key** for 2 seconds to display the **Delete Menu.** Use the **Right Arrow Key** to select **X** (delete the current message) or **ALL** (delete all the read messages). Press **Read Button** to confirm.

CAUTION: *The above procedure will not delete unread messages.*

To turn the pager off, press the **Read Button** to display the date screen, then hold the **Escape Key** (black button with red dot) down until the **Settings Menu** is displayed. Use the **Right Arrow Key** to highlight the **Off** symbol, and press the **Read Button** twice.

The **Commtech Wireless 6120 Alphanumeric Pager** operates off of a standard AAA battery. Turn unit off when not in use to prolong battery life.

Note: Please refer to the **Commtech Wireless 6120** pamphlet for further detail on operation and maintenance of your pagers.
